

SAMKALP IAS ONLINE – LMS PORTAL DESIGN DOCUMENT

1. Platform Vision

Samkalp IAS Online is a structured, mentor-driven UPSC preparation ecosystem designed to guide aspirants from entry to interview through a personalized, data-driven learning journey. It integrates:

- Assessment
- Structured learning
- Continuous evaluation
- Mentorship
- Performance tracking into one unified platform.

2. Student Entry & Dashboard Experience

Login Flow

- Secure Login (ID & Password)
- Instant access to Personalized Dashboard

Dashboard Highlights

- Daily Study Plan
- Progress Tracker (% syllabus completed)
- Targets vs Achievement
- Upcoming Live Classes
- Pending Tests / Tasks
- Mentor Notifications

This dashboard acts as the central command center of preparation.

3. Core Learning Journey Flow

Stage 1: Psychometric Assessment & Career Mapping

Student completes Psychometric Assessment Test

System generates:

- Detailed PDF Report
- Strengths, Weaknesses, Learning Style

Followed by:

- 1:1 Mentor Counseling Session
- Personalized UPSC Preparation Strategy

Stage 2: Live Classes & Learning Content

Live Learning

Scheduled Live Classes (GS + Optional)

Calendar-based access

Recording available post-session

Content Access

- Session Notes (PDF)

- Faculty Notes (Multilingual – English + Regional)

- Recorded Lectures Archive

Stage 3: Daily Practice & Evaluation

Daily Tests

Daily Quizzes

Instant Performance Analysis

System Insight:

- Topic-wise accuracy

- Weak area detection

- Improvement recommendations

Stage 4: Current Affairs Engine

- Daily Current Affairs Updates

- Monthly Compilation PDFs

- Weekly Analysis Reports

- Newspaper Editorial Breakdown (Exam-focused)

Stage 5: Mentorship & Exam Guidance

Dedicated Mentor Assigned

Features:

- Exam Notification Tracking

- Subject-wise Planning

- Strategy Sessions

- Direct Mentor Connect (Chat / Scheduled Calls)

Stage 6: Digital Library

- Standard UPSC Books Repository

- Reference Materials:

Optional Subject Resources
Bookmark & Search Features

Stage 7: Mock Test Series

Full-Length Prelims Tests
Mains Answer Writing Practice
AI-like Evaluation Logic (Rule-based)
Performance Benchmarking

Stage 8: Interview Preparation Module

Mock Interviews
Panel Evaluation
Personality Feedback Reports
Final Stage Mentorship

4. Smart Personalized Learning Engine (Key Differentiator)

Dynamic Dashboard Intelligence
The system adapts to student performance:
Low scores → Extra practice assigned
Missed classes → Alerts & rescheduling
Strong areas → Fast-track progression
Mentor notified for intervention
Creates a customized preparation journey for each aspirant

5. Student Progress & Study Planning System

Real-time Progress Tracking
Daily / Weekly Study Planner
Goal vs Completion Analytics
Weak Area Identification
Displayed directly on Dashboard

6. Admin & Faculty Control Panel (Backend)

Content Upload (Video, PDF, Multilingual)
Test Creation System
Student Analytics Dashboard
Mentor Assignment System
Notification & Alert Engine
